💼 Experience

Company 1
Senior Software Developer

Apr 2021 - present

2.5 years

- Use my extensive experience with front end development to define the structure and components for the project, making sure they are reusable
- Keep the code quality high reviewing code from other developers and suggesting improvements
- Interact with the designer to suggest changes and to make sure the view he has about the design is translated into actual functionality
- E-commerce maintenance **with Fastcommerce**, a Brazilian e-commerce platform

Company 2
Software Developer

Jun 2015 - Dec 2017

2.5 years

- Develop web applications based on Sharepoint, Drupal 8 and Episerver
- Lead a team of 10 front end developers, giving support to the client's multi-cultural team, providing feedback, clarifying requirements and helping with technical questions
- Keep the Project Manager and the IT Leads updated on the overall progress of the projects and manage the tasks distributed to the team
- Keep the code and the features implemented by the other developers in accordance to the requirements

Company 3
Trainee Developer

Aug 2011 - May 2015

1 year

- Design easy user interfaces and great user experiences for the digital platforms of small companies
- Wordpress development, including themes creation or customization, custom plugins development and training
- E-commerce maintenance with Fastcommerce, a Brazilian e-commerce platform
- E-commerce development with Magento, customizing preexisting themes
- Integrate external services such as payment services, delivery, etc into Magento solutions
- VPS configuration and optimization (Apache & Nginx)

🔑 Key Projects / Involvements

- Prevented millions of dollars in state sales tax undercharges by initiating tests that revealed a bug in a new release of shopping cart software.
- Isolated previously undiscovered flaw in price checking tool resulting in more competitive pricing and a 20 percent increase in revenue.
- Implemented automated testing tools spawning more diligent levels of regression testing, negative testing, error/bug retests and usability.
- Prevented millions of dollars in state sales tax undercharges by initiating tests that revealed a bug in a new release of shopping cart software.
